TO WHOMSOEVER IT MAY CONCERN

M/s. Elysees Interior Designers & Decorators were associated with us during the period of 2011-2012. During this time they were assigned the task of carrying out the interiors for our new facility at Whitefield. The task was given on a turnkey basis from concept to completion including project management. The total value of the work performed was approximately 2 and ½ crores,

The association with Elysees had been extremely pleasant. Right from the CEO of the company down to the worker, every staff member was the epitome of professionalism. The remarkable part of this relationship was mutual trust and respect. From the design down to the implementation, a lot of emphasis was laid on commitment to word given. The design was very creative, the work performed was impeccable, of a truly global standard, timelines adhered to, communication was frequent, timely and transparent, integrity and ethics maintained, and costs kept under control even though changes were made midway. From a service provider the entire relationship matured to a robust partner. Our association will continue with them in the future as well.

We believe we were given every cent its worth in terms of value, if not more. The intangible gains of working with Elysees were significant. We were given true value for money and more importantly, we gained a reliable and committed partner who worked just like our own team member.

We wish Elysees Interior Designers and Decorators, represented by Ms. Vijaya Williams, the CEO of the company, all the very best in all their future assignments. Should any additional references be required, the undersigned may please be contacted.
